⊳ ©	Applications Applications Applications SSO Integrations SSO Integrations SSO Integrations sso acconnections	One or more connections are using Auth0 development keys which are only intended for use in development and testing. The connections should be configured with your own Developer Keys to enable the consent page to show your logo instead of Auth0's and to enable SSO for these connections. Auth0 development keys are not recommended for Production environments. To learn more about Development Keys please read the Social Connections Devkeys documentation.	tvoyagers.in
